Special Issue highlighting key research by Japanese scientists

Chemical Biology & Drug Design誌は、ピアレビューによるケミカルバイオロジーとドラッグデザインに関する学際的な領域に焦点を当てた学術誌です。今回、本領域における日本の素晴らしい研究に焦点を当てるべく、日本人研究者による優れた論文からなる「バーチャルイシュー」を企画いたしました。これらの論文がカバーするトピックスは生物学的現象を理解するためのケミカルツールの開発から低分子やペプチドの構造活性相関研究まで多様です。生物学の深い理解に基づく化合物設計の世界をご堪能ください。

Chemical Biology & Drug Design is a peer-reviewed scientific journal dedicated to the advancement of innovative science, technology and medicine with a focus on the multidisciplinary fields of chemical

biology and drug design. To highlight the great work coming out of Japan in these areas, we have put together a "virtual issue" consisting of the top papers published in the journal from Japanese scientists. The topics covered by this selection of papers range from the development of chemical tools for understanding biological events to structure activity relationship studies of small molecules and peptides. Please enjoy their compound designs, which are based on a deep understanding of biology.
