Correction: Genetic and neuro-epigenetic effects of divergent artificial selection for feather pecking behaviour in chickens

Elske N. de Haas^{1,2*}, Fábio Pértile^{3,7†}, Joergen B. Kjaer^{5,6}, Per Jensen⁴ and Carlos Guerrero-Bosagna^{7*}

Correction: *BMC Genomics* 25, 1219 (2024)

<https://doi.org/10.1186/s12864-024-11137-w>

Following publication of the original article it was reported that the author affiliations for Elske N. de Haas, Fábio Pértile and Carlos Guerrero-Bosagna were assigned incorrectly.

The affiliations were wrongly given as:

Elske N. de Haas^{1,2,7}, Fábio Pértile^{3,4}, Carlos Guerrero-Bosagna⁴.

1 Department of Veterinary Science, Animals in Science and Society, Utrecht University, Utrecht, The Netherlands.

2 Behavioural Ecology Group and Adaptation Physiology Group, Department of Animal Sciences, Wageningen University, Wageningen, The Netherlands.

3 Escola Superior de Agricultura “Luiz de Queiroz”, São Paulo, Brazil.

4 IFM Biology, Avian Behaviour Physiology and Genomics Group, Linköping University, Linköping, Sweden.

The correct affiliations are:

Elske N. de Haas^{1,2}, Fábio Pértile^{3,7}, Carlos Guerrero-Bosagna⁷.

1 Department of Veterinary Science, Animals in Science and Society, Utrecht University, Utrecht, The Netherlands.

2 Behavioural Ecology Group and Adaptation Physiology Group, Department of Animal Sciences, Wageningen University, Wageningen, The Netherlands.

3 Escola Superior de Agricultura “Luiz de Queiroz”, São Paulo, Brazil.

7 Physiology and Environmental Toxicology Program, Department of Organismal Biology, Uppsala University, Uppsala, Sweden.

The correct full authorship is given in this Correction and the original article has been updated.

Published online: 06 January 2025

Publisher's note

Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

[†]Elske N. de Haas and Fábio Pértile contributed equally to this work.

The online version of the original article can be found at <https://doi.org/10.1186/s12864-024-11137-w>.
